

UNIVERGE® SV9100 COMMUNICATIONS SERVER

Smart Communications for **Small and Medium Businesses**

The **UNIVERGE SV9100S** and **SV9100E** Communications Servers are robust, feature-rich, Unified Communications enabled systems that are ideal for small and medium-sized businesses. Each server is designed to help solve today's communications challenges and is built with your migration path in mind, so you can scale your communications as your business grows.

The SV9100 offers:

- > Two distinct, scalable Unified Communications enabled server models
- > IP or Digital voice support
- > Unified Messaging, Voicemail, and Mobility Features included
- > Streamlined application integration through the new simplified user licensing structure
- > Stackable chassis architecture which supports server functions, media gateways and media converters in a single unit

"The SV9100 will grow as your business grows."

At a Glance

- > IP Extensions/Digital/Analog
- > Stations up to 896
- > Trunks up to 400
- > Multi-Line SIP Client with Multi-Carrier SIP Support

The SV9100 meets all your communications needs.
